

1. Answer the questions given below according to the paragrap.(4x5=20p) E12.7.R1. Students will be able to list vocabulary for narrating and describing events in a text.

In 1985, a small town in England called Willowbrook made history by opening the country's first solar-powered school. The project was led by a local engineer, Mr. Thomas Green, who wanted to show the benefits of alternative energy. The school, named Willowbrook Primary, used solar panels to power its classrooms, saving 50% on electricity costs in its first year. The opening ceremony took place on June 15, 1985, and was attended by over 200 people, including the town's mayor. This event inspired other towns in England to explore solar energy for public buildings.

1. : In what year did Willowbrook open the first solar-powered school in England?in 1985.....

2. Write 3 solutions to the envirentmental problems mentioned below according to the letter. (3x10= 30p) E12.8.R2. Students will be able to analyze a reading passage to find out solutions to environmental problems.

"I am writing to complain about an environmental problem in our area. There is a lot of trash in the park near my house. It is very dirty and smells bad.
This problem makes it hard for people to enjoy the park. Children cannot play, and people cannot walk or relax. The trash is also bad for animals and plants.
I have some suggestions to solve this problem. First, the local authority can put more trash bins in the park. Second, we can organize a clean-up day with volunteers. Finally, we need signs to tell people not to litter.
Thank you for your attention to this matter. I hope we can work together to make our park clean and beautiful again."

3. Write down the three opinion sentences of the paragraph given below (3x5= 15p) E12.8.W2. Students will be able to write their opinions about the usage of alternative energy.

"In my opinion, using alternative energy is a fantastic idea for our planet. Sources like solar, wind, and hydro energy are much cleaner than fossil fuels because they don't produce harmful pollution. For example, solar panels can give us electricity without damaging the air, and wind turbines use the wind to create power without any waste. I believe that if more countries invest in alternative energy, we can reduce global warming and protect nature. Although it might be expensive to start, I think it's worth it for a healthier and more sustainable future."

Sentence 1: "In my opinion, using alternative energy is a fantastic idea for our planet."

Sentence 2: "I believe that if more countries invest in alternative energy, we can reduce global warming and protect nature."

Sentence 3: "Although it might be expensive to start, I think it's worth it for a healthier and more sustainable future."

4. Read the following passage from a travel brochure about a popular tourist destination. Then, categorize the information into the appropriate sections: "Attractions," "Activities," "Accommodation," and "Dining." (4x5=20p) E12.9.R2. Students will be able to categorize information in everyday material, such as websites, brochures and magazines.

5. Write a note to your friend according to the scenerio given below.. (15p) E12.9.W1. Students will be able to write a note asking someone to have something done.

Your bicycle has a flat tire, and you need to ask your friend Alex to help you get it fixed because you don't have time to do it yourself. Write a note to Alex asking for help. In your note, make sure to:

1. Explain the problem with your bicycle.
2. Ask Alex to take your bicycle to the repair shop.
3. Provide any necessary details, such as the location of the repair shop and when you need the bicycle fixed by.

Example Note:

Hi Alex,

I hope you're doing well. I have a flat tire on my bicycle, and I'm really busy this week. Could you please take my bike to the repair shop on Elm Street? They are open from 9 AM to 6 PM. I need the bike fixed by Friday because I have an important ride planned for the weekend.

Thanks a lot for your help!
