4- Answer the questions according to the paragraph given below. (5x6=30p)

Protecting Our Environment

Rubbish in parks and streets can harm animals and pollute nature. We should keep public places clean and separate garbage for recycling. Last weekend, my sister Carol and I helped protect the environment. First, we picked up litter in our neighborhood. Next, we separated paper and plastic into recycling bins. We also planted a small tree in our garden to help the forest. At home, we turned off the lights to save energy. Finally, we learned about the importance of clean water. Boats can pollute the sea. My sister said, "Never throw trash into the water!"
